

17-3 Woodworking Tools

99490 Edge Bander / Heat Gun

- * Electronically controlled German made heat gun (115V cUL and 220V CE) adjustable between 100° and 600°
- * A wide range of banding materials from 3/4" ~ 2" (19 ~ 51mm) wide
- * Facilitates applying pre-glued edge banding
- * Pre-glued banding is fed through a blast of hot air prior to being applied to the edge of the board material
- * Built-in cut-off knife is actuated with the blow of hand for quick cutting

99500 Edge Banding Iron

- * Voltage: 110 ~ 120V/AC
- * Electric current: 1.0 ~ 1.3A
- * Low temperature: 70°C ± 10°C
- * High temperature: 90°C ~ 240°C
- * Apply pre-glued edge banding with ease and accuracy
- * The thermostatically controlled short preheat time prompts efficient work
- * Heat resistant metal base provided for resting between use

99510 Portable Edge Bander Set

- * Handles edge banding up to 50mm wide x 1mm thick or 30mm wide x 2mm thick
- * Fully adjustable from 50°C ~ 610°C, max. 2,000W input
- * Weight: 3 kg
